Summary

As a software developer with over a year of experience, I bring a strong foundation in modern web technologies, including React.js, Express.js, MongoDB, Laravel, and MySQL. My hands-on experience with REST APIs and third-party API integrations enables me to build efficient and scalable applications. I am passionate about leveraging my skills to deliver high-quality software solutions and am eager to contribute to a dynamic development team.

Skills

React Js · Express Js · Mongo · Redux · DOM Manipulation · Laravel · MySql

Experience

Wepro Solutions   Mohali
Software Developer Intern   10/2023 - Present

Company Description
- Highlight your accomplishments, using numbers if possible.

Redsky advance solutions   Mohali
React js developer   06/2023 - 11/2023

Company Description
- Highlight your accomplishments, using numbers if possible.

Education

Kurukshetra University
MCA   2023

Kurukshetra University
BSC(Computer Science)   07/2018 - 07/2021

Courses & Certificates

React.js Developer

Interests & Hobbies

Coding Projects/Side Projects	Learning New Technologies	Gaming
Music	Problem Solving/Puzzles	

Projects

E-commerce Website

A dynamic e-commerce website using React.js, featuring a user-friendly interface and seamless navigation. The site includes key functionalities such as product listings, shopping cart management, and secure checkout processes. By integrating REST APIs, I ensured real-time data synchronization for product availability and user transactions. The project showcases my ability to create responsive, scalable, and efficient web applications that deliver a smooth user experience

Projects

Typing Game

I created an engaging typing game using React.js, designed to improve typing speed and accuracy. The game features dynamic word generation, real-time scoring, and a user-friendly interface that tracks progress over time. Leveraging React's state management, I ensured smooth gameplay and responsiveness. This project highlights my ability to build interactive and performance-optimized web applications that provide an enjoyable user experience
